

Teil B: Messung des Durchmessers des gedehnten Fadens (1,5 Punkte)

B.1 (0.6 pt)

B.2 (0.3 pt)

$D = \quad \pm$

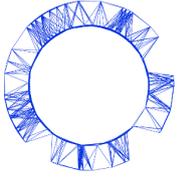

B.3 (0.3 pt)

$\bar{x} = \quad \pm$

B.4 (0.3 pt)

$d = \quad \pm$

Experiment

IPhO 2018
Lisbon, Portugal

A2-5

Austrian German (Austria)

Teil C: Wechseln des Fadens (0,3 Punkte)

C.1 (0.3 pt)

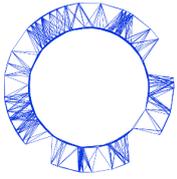

l'_0 \pm

Teil D: Datenauswertung (5,7 Punkte)

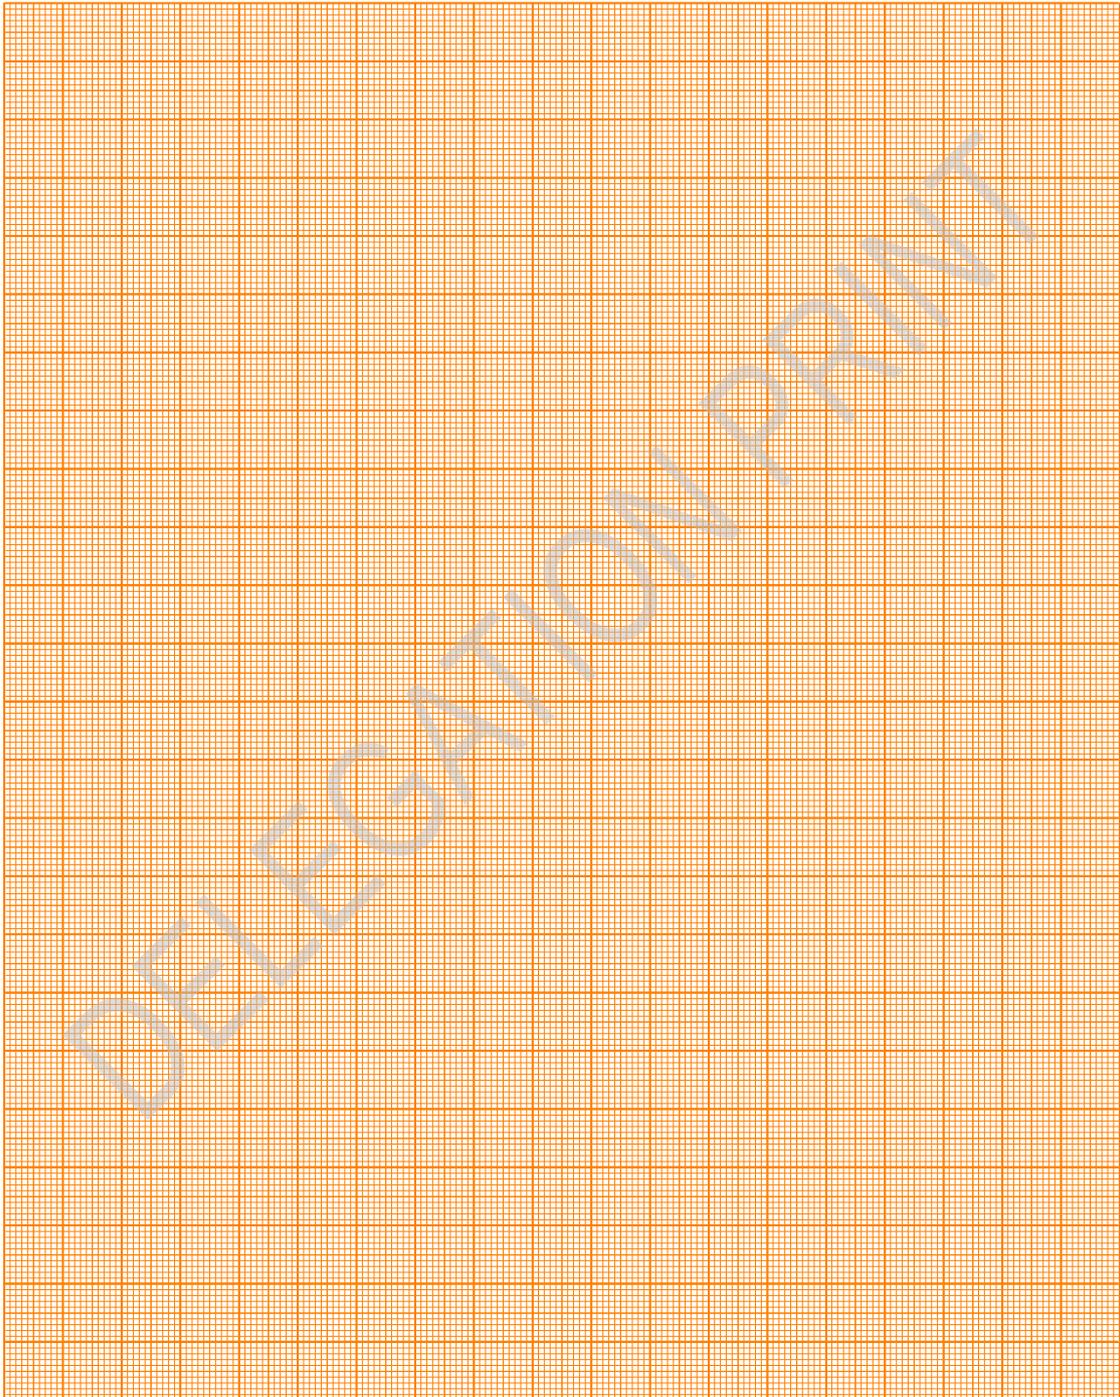

D.1 (0.3 pt)

Fülle F in der Tabelle von Teil **A.3** aus.

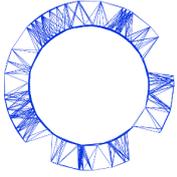

DELEGATION PRINT

D.2 (0.4 pt)

Experiment

IPhO 2018
Lisbon, Portugal

A2-7

Austrian German (Austria)

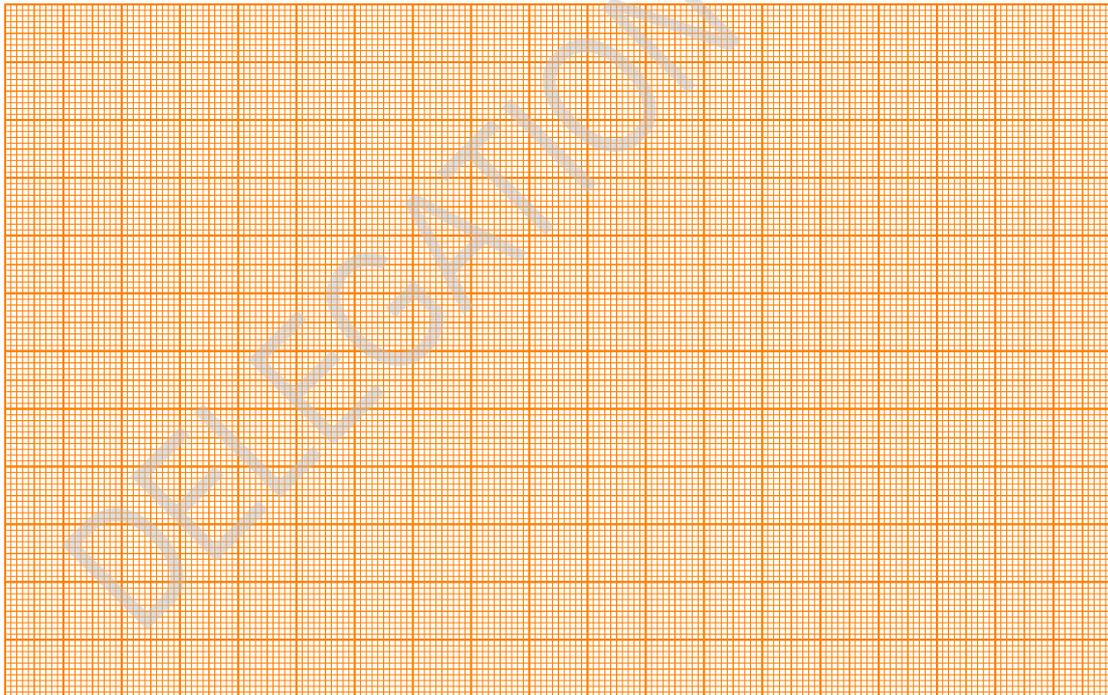

D.3 (0.3 pt)

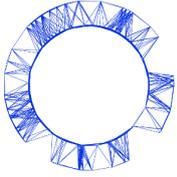

$\epsilon =$ \pm

D.4 (0.3 pt)

$\beta =$

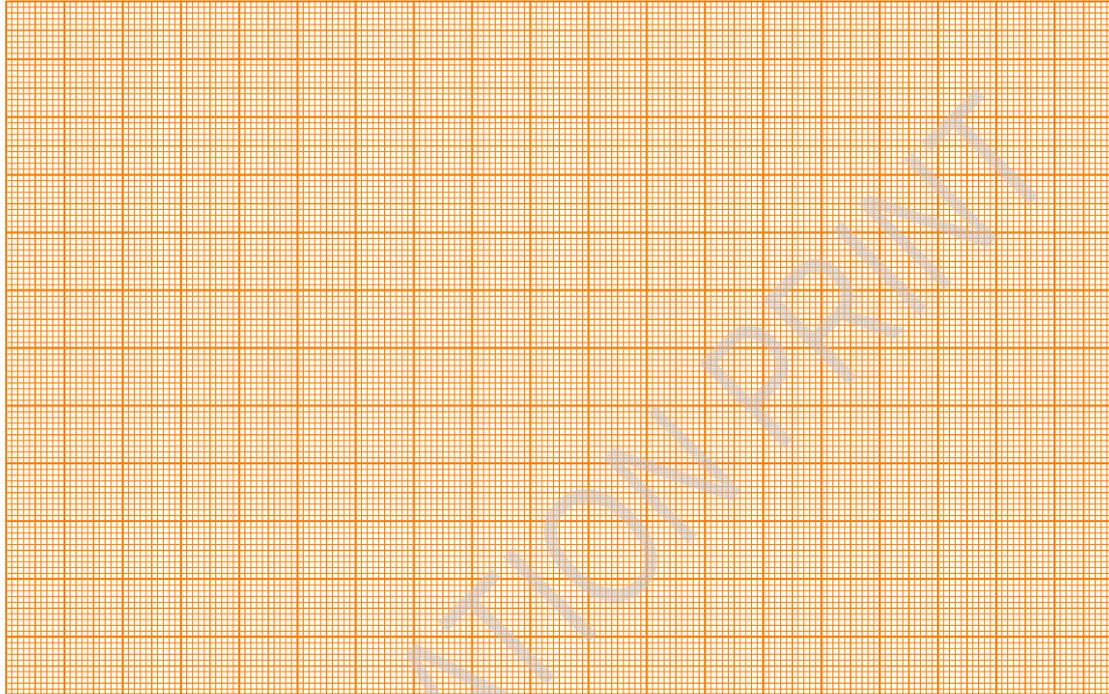

D.5 (0.4 pt)

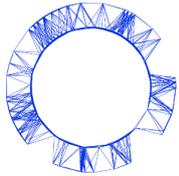

D.6 (0.5 pt)

Fülle $\frac{dE}{dt}$ in der Tabelle von Teil **A.3** aus.

D.7 (0.3 pt)

Experiment

IPhO 2018
Lisbon, Portugal

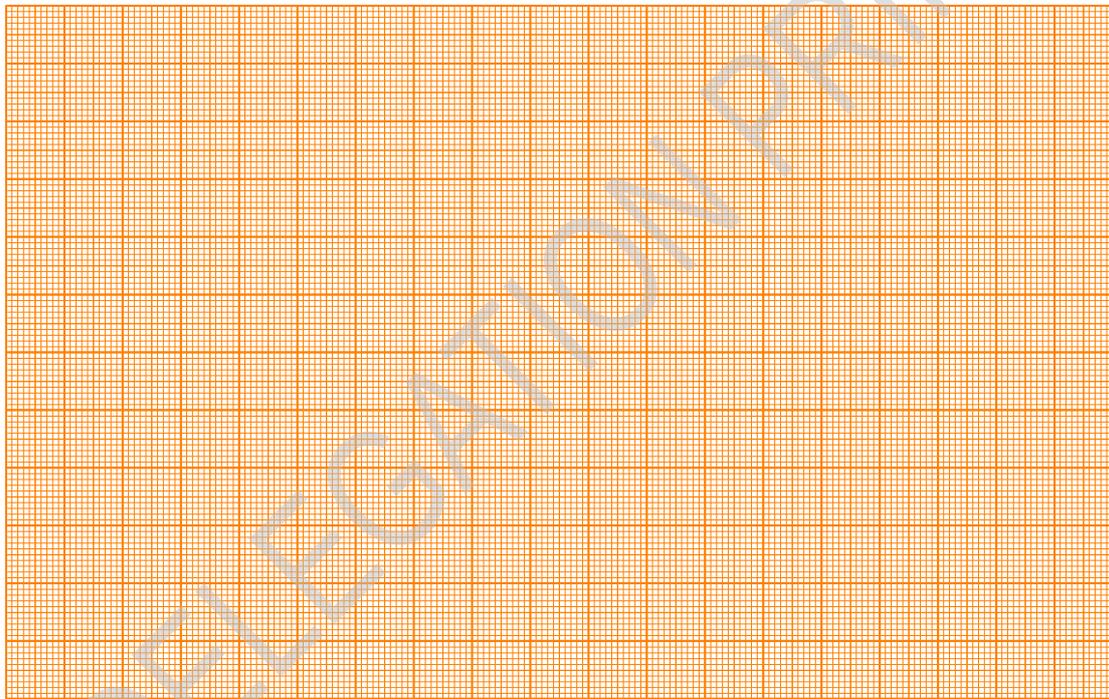

A2-9

Austrian German (Austria)

D.8 (1.0 pt)

$$E_1 =$$

$$\tau_1 =$$

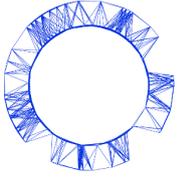

D.9 (0.3 pt)

$$E_0 =$$

D.10 (0.3 pt)

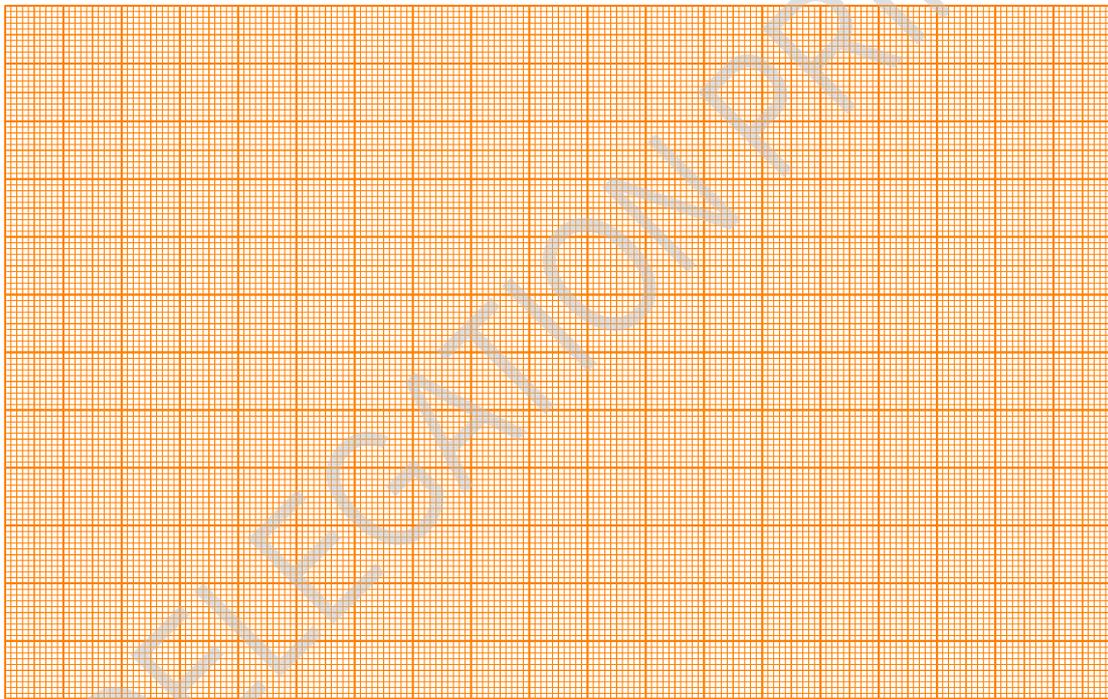

Fülle $y(t)$ in der Tabelle von Teil **A.3** aus.

D.11 (1.0 pt)

$$E_2 =$$

$$\tau_2 =$$

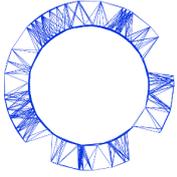

D.12 (0.3 pt)

$$t_i =$$

$$t_f =$$

Experiment

IPhO 2018
Lisbon, Portugal

A2-11

Austrian German (Austria)

D.13 (0.3 pt)

$\tau_3 =$

Teil E: Messung von E bei konstanter Spannung (0,6 Punkte)

E.1 (0.6 pt)

$E =$

$\frac{E-E_0}{E_0} =$
